Additional rail for the RAUC System

21mm picatinny type rail for Decumanus mounts and any mount of the RAUC system.

Rottigni Officina Meccanica, or ROME, is an Italian company located near Bergamo (Lombardy), specializing in high-end accessories for Victrix precision weapons.

Its philosophy is based on constant innovation and the use of high-precision technologies to create products with immediately identifiable aesthetics. The premises of the firm extend over 3000 square meters, and include around thirty CNC machines, at the cutting edge of current technology. But that's still not enough for ROME, which also employs some of the most talented workers and engineers to finish the brand's products by hand, for an impeccable fit.

Each Victrix gun, already considered among the best in the world, thus equipped with this equipment, becomes a real jewel in the hands of the most demanding shooters in terms of their profession or their sport. The ROME-Victrix couple has become in the field of firearms what the RUF-Porsche and AMG-Mercedes couples were in the automotive field: a synonym of performance, reliability and excellence.
