CAM110	TACTACAM camera 5.0	Vente libre	11	90	32 mm	~~420.00 € incl. tax~~ 273.00 € incl. tax

Tactical camera to mount on a gun, scope or helmet!

The Tactacam 5.0 was designed with the modern sportsman in mind. The #1 Point of View camera on the market for hunting features 8x zoom that brings your hunt closer than ever.

New image stabilization technology takes the "shock" out of shooting and lets you capture crystal-clear footage in 4k.

Recording function on the integrated SD card, but also live transmission to the application of your mobile phone which can then also control the camera!

Tactacam is designed for you using the best electronics available. Easy to use; 1 touch operation with vibration indication enables easy camera operation.

This small hunting video camera was built with a super high quality lens and low light sensor. Instead of using a fisheye lens, which pushes back images, Tactacam uses a unique lens design, providing a view similar to what we see with the human eye. Tactacam 5.0 now features an improved 8x zoom to get your target closer than ever!

All of this makes the Tactacam 5.0 the most capable action camera on the market.
