- Mantis BlackbeardX training system with green laser to perfect your shooting at home.
- Included are six 32-round Daniel Defense magazines for maximum capacity.

NightForce NX8 goggle features:

The NX8™ 1-8X24 F1 is a compact and lightweight riflescope optimized for short and medium distance shooting. At just 8.75" in length and 17 ounces, this rifle scope adds minimal size and weight, but delivers superior optics and proven Nightforce performance to any rifle.

With the central red dot visible in daylight, users can engage targets with speed like a red dot sight, but as targets increase in distance, the smart FC-Mil and FC-MOA reticles of the first focal plane provide precise support points. For those who prefer to dial in for long shots, the ZeroStop elevation adjustment allows for a quick, positive return to zero. Settings are 0.2 Mil-Radian or 0.50 MOA. To facilitate quick magnification adjustments, a power projection lever (PTL) is included.

- Magnification: 1x - 8x
- Lens diameter: 24 mm
- Body diameter: 30 mm
- Length: 22.2 cm
- Mount length: 14.4
- Drift run: 100 MOA
- Elevation travel: 100 MOA
- Parallax adjustment: fixed at 125 m
- Field of view at 100 m: 35.3-4.4

Exclusivity and Authentication: Each DDM4 V7 Pro "Dark Aces" is accompanied by a certificate of authenticity, attesting to its membership in this highly sought-after limited edition.
